WEDNESDAY, MAY 14, 1884.

ASSOCIATED PRESS TELEGRAMS.

HAYES AGENCY

London, 12th.

It is announced from the Sudan

that the Mahdi's forces are actually

on the Nile.

Paris, 12th.

The Municipal elections in the capital

resulted in the return of

11 Conservatives,

33 Opportunists,

34 Radicals,

2 Social Revolutionists.

Montevideo, 13th.

The Admiral Brown sailed for Maldonado

yesterday afternoon, for target

practice.

Government has given 15,000 pesos

to relieve the victims of the floods.

Galí & Co. have ordered machinery

for a paper factory from Europe.

The resignation of Mr. Suarez, Post-

master-General, is denied.

Rosario, 13th.

D'Amici has just arrived here from

Tucuman.

Great fears about the Municipal

elections, which will probably be

decided null and void.

Diphtheria is spreading seriously.

The faunage date by the explosion

at Kirk's mill is estimated at 20,000

tons. One of the injured men has

died.

The sowing of wheat has commenced

in some of the colonies.

BANDA ORIENTAL PROGRESS.

The steady progress of the Republic

of the Uruguay within the last

two years admits of no question. We

have evidence of that progress on all sides,

and scarcely a man reaches from Eng-

land that does not bring us some item

or other of good news for Montevideo.

In England much of the prosperity

of these countries is judged by their rail-

way returns, and the last half yearly

report of the Central Uruguay Railway

shows splendidly for that country and

that company. As the subject cannot

fail to be of high interest to a very

large portion of our readers, we ex-

tract the following figures from this

report, which speak eloquently

THE FIGHTING AT KHARTOUM.

The Times publishes the following

extracts from its correspondent at

Khartoum:

"Since the 28th our steamer and a

large boat have been lying at the

junction of the Nile and the

White Nile, and have been

shooting the rebels and capturing

boats and camels. Our station on the

bank of the Nile, nearly op-

posite the Palace, consists of two

houses, loopholed, and occupied by

500 British troops. We have also

fortified the village in the middle

of the river. The rebels have

been driven back, and are now

hiding in the swamps. The British

have been successful in capturing

many of their boats and camels.

The British have been successful

in capturing many of their boats

and camels. The British have been

successful in capturing many of

their boats and camels. The British

have been successful in capturing

many of their boats and camels.

EDITORIAL TABLE

Continued from last page

We remind members and friends of the English Literary Society that its meetings open for the season to-night, with the inaugural address of its new and popular President, Prof. Pressinger. More than usual interest is manifested about this "first night," as the Professor's eloquent and vigorous style of speaking is well known, and his legion of friends are anxious to hear his programme as Chairman of such an undeniably useful and deservingly popular institution.

We received yesterday the inaugural address of the new Governor of San Luis, Dr. Mendoza, but it is quite too long for our columns. H. E. adopts President Roca's device "Peace and Administration," and promises all kinds of good things during his term of office.

We thank the agents and captain of the Hogarth for English papers of the 12th ult.

The Rosario Municipality have accepted Mr. Peck's proposal to lay down a new tramway in that city. Other proposals were refused, and the authors of them naturally felt a little piqued at Mr. P.'s success.

English habits and customs are making more way here than any others. The Argentine Bachelors have decided to imitate their British brothers in simple-blessedness and give a grand ball in September next. Hear! hear! and cheer!

The Lord Mayor had a long chat yesterday with the City Architect, who was ordered to prepare plans at once for a grand new entrance to the Colon Theatre, on Plaza Victoria. A grand covered vestibule will be built, so that people can enter their carriages or travel on rainy nights without getting wet to the skin, as now. What will the Lord Mayor, Dr. Larroque, say to this?

The foundation-stone of the grand new Independence Monument, to be raised on the site of the old Recoleta Arch, will, it is said, be laid by President Roca on the 25th inst. With the Lord Mayor on the engine, things in this city now are rushing ahead, not only "a vapor," but with electric speed.

The countrymen of William Tell have stiff backbones. The *Reforma* of Asunción mentions a Swiss emigrant in Parana, who wanted to go to Paraguay but had not a red cent in his pocket to pay his fare, so he resolved on walking to Asunción. He left Parana on March 15th and reached the Paraguayan capital in the first week in May, with not a hair turned, although he had suffered great privations and encountered many dangers by the way.

The "Abascosteros" have formed a Mutual Protection Society to resist the unjust taxation recently imposed on their business by the Municipality. The butchers in the markets have also made a move and petitioned the Lord Mayor to save them from the tender mercies of the "Consejo."

Number 5374 won the 10,000 Nats. prize in yesterday's Lottery. Sixteen Krupp guns will be paraded at the military display in the Plaza on the 25th. The Minister has ordered new harness for the horses.

The Lord Mayor's Manifesto explaining the recent little unpleasantness is expected to be in the papers this morning. We hear that it is a most triumphant refutation of the charges trumped up against him, and likely enough to produce another display of public discontent with the "Deliberative Council."

Mr. William Crawford will leave for Europe in the *Matter Brunzo*, on Thursday, and he tells us that he intends to visit India and China before we see him again. We wish him a pleasant trip. Pomos for ever!

The Juz de Comercio delivered judgment yesterday in the famous case of *Wheley, Serna and Balbin versus Lesama*, condemning the defendant to pay everything, costs included. Dr. Dominguez's loss in the case was fixed by the Judge at 4,000 ptes, and attorney *Bauda* at 800. So ends this famous Stock Exchange case.

It is really too bad of the newspaper correspondents in Montevideo to now manufacture cases of yellow fever regularly on the arrival of steamers from Brazil. This stale way of "padding" drizzly telegrams has again been resorted to on the arrival of the *Savoie*. Some children on board had eczema, hence the "cases suspected." It is time to stop this kind of thing.

They have had very severe frost in the Banda Oriental, and the potato plants have suffered in many districts. Farmers are nervous lest there be more of it to come. In the South camps of this province the frost has been very severe, especially about Olavarría. The *Anglican Church Gazette* for this month says:

"We are sure our readers will be glad to hear that letters have been received from the Rev. Dr. Smith, in which he announces his intention of returning in the *Leibnitz*, sailing from Liverpool on April 10. Her arrival may be looked for about the middle of the month."

The *Patria Argentina* says that the house in Calle Lavalle 610-616 is in such a bad state that it may come down by the run at a moment's notice. We implore all our subscribers, especially those who are in arrears, to avoid that side of the street.

D'Amicis will return to his native breezes in the *Nord America* on her next run home.

One of the richest men in Brazil, Viscount *Esquivel*, is expected here in a few days. This nobleman's fortune is colossal—fifty millions ptes, or ten millions sterling.

All the prattle about the Government applying to Congress to reform the Municipal Law, turn out the Consejo, etc., is pure bores. The *Tribuna Nacional* declares that the Executive has no such intention—at least for the present. If the "Consejales" did right, they would resign in face of the overwhelming expression of public opinion last week; but they do not seem inclined to do anything so proper, and more fuss and fun may be looked for.

The houses in La Plata are springing up like mushrooms, and we hope for a more secure tenure of existence. The clerks in the Revenue Office are already installed in their wooden edifices in front of the Finance Department.

D'Amicis will return to his native breezes in the *Nord America* on her next run home.

One of the richest men in Brazil, Viscount *Esquivel*, is expected here in a few days. This nobleman's fortune is colossal—fifty millions ptes, or ten millions sterling.

All the prattle about the Government applying to Congress to reform the Municipal Law, turn out the Consejo, etc., is pure bores. The *Tribuna Nacional* declares that the Executive has no such intention—at least for the present. If the "Consejales" did right, they would resign in face of the overwhelming expression of public opinion last week; but they do not seem inclined to do anything so proper, and more fuss and fun may be looked for.

The houses in La Plata are springing up like mushrooms, and we hope for a more secure tenure of existence. The clerks in the Revenue Office are already installed in their wooden edifices in front of the Finance Department.

Y rodeados de magníficos edificios particulares terminados y en construcción.

Por más informes concurrir a nuestra casa, Alinea 78.

El Lord Mayor had a long chat yesterday with the City Architect, who was ordered to prepare plans at once for a grand new entrance to the Colon Theatre, on Plaza Victoria. A grand covered vestibule will be built, so that people can enter their carriages or travel on rainy nights without getting wet to the skin, as now. What will the Lord Mayor, Dr. Larroque, say to this?

The foundation-stone of the grand new Independence Monument, to be raised on the site of the old Recoleta Arch, will, it is said, be laid by President Roca on the 25th inst. With the Lord Mayor on the engine, things in this city now are rushing ahead, not only "a vapor," but with electric speed.

The countrymen of William Tell have stiff backbones. The *Reforma* of Asunción mentions a Swiss emigrant in Parana, who wanted to go to Paraguay but had not a red cent in his pocket to pay his fare, so he resolved on walking to Asunción. He left Parana on March 15th and reached the Paraguayan capital in the first week in May, with not a hair turned, although he had suffered great privations and encountered many dangers by the way.

The "Abascosteros" have formed a Mutual Protection Society to resist the unjust taxation recently imposed on their business by the Municipality. The butchers in the markets have also made a move and petitioned the Lord Mayor to save them from the tender mercies of the "Consejo."

Number 5374 won the 10,000 Nats. prize in yesterday's Lottery. Sixteen Krupp guns will be paraded at the military display in the Plaza on the 25th. The Minister has ordered new harness for the horses.

The Lord Mayor's Manifesto explaining the recent little unpleasantness is expected to be in the papers this morning. We hear that it is a most triumphant refutation of the charges trumped up against him, and likely enough to produce another display of public discontent with the "Deliberative Council."

Mr. William Crawford will leave for Europe in the *Matter Brunzo*, on Thursday, and he tells us that he intends to visit India and China before we see him again. We wish him a pleasant trip. Pomos for ever!

The Juz de Comercio delivered judgment yesterday in the famous case of *Wheley, Serna and Balbin versus Lesama*, condemning the defendant to pay everything, costs included. Dr. Dominguez's loss in the case was fixed by the Judge at 4,000 ptes, and attorney *Bauda* at 800. So ends this famous Stock Exchange case.

It is really too bad of the newspaper correspondents in Montevideo to now manufacture cases of yellow fever regularly on the arrival of steamers from Brazil. This stale way of "padding" drizzly telegrams has again been resorted to on the arrival of the *Savoie*. Some children on board had eczema, hence the "cases suspected." It is time to stop this kind of thing.

They have had very severe frost in the Banda Oriental, and the potato plants have suffered in many districts. Farmers are nervous lest there be more of it to come. In the South camps of this province the frost has been very severe, especially about Olavarría. The *Anglican Church Gazette* for this month says:

"We are sure our readers will be glad to hear that letters have been received from the Rev. Dr. Smith, in which he announces his intention of returning in the *Leibnitz*, sailing from Liverpool on April 10. Her arrival may be looked for about the middle of the month."

The *Patria Argentina* says that the house in Calle Lavalle 610-616 is in such a bad state that it may come down by the run at a moment's notice. We implore all our subscribers, especially those who are in arrears, to avoid that side of the street.
